Subject: For Review: Administrator Opportunities for Federal Leadership & Private Sector Innovation Reducing Food Loss & Waste
Attachments: Opportunities for EPA Administrator engagement.docx

Good morning Barry,

Please find attached for your review a list of potential opportunities for the Administrator to engage domestically and internationally on food loss and waste. As a reminder, during the Disney event in November the Administrator expressed interest in working with municipalities and the private sector in raising awareness and scaling up food recovery innovations. ORCR met with Jane (and Sarah Greenwalt briefly) to explore opportunities, both domestically and internationally, for possible Administrator engagement.

The attached list is compilation by ORCR (domestic) and OITA (international) of potential opportunities. We have included your feedback during our last general of reinvigorating our USDA partnership (the first one), around earth day, including recommitting to the 2030 goal.

After you approve, these ideas will be provided to Sarah for feedback and then discussion with the Administrator. Please let us know if you have any questions or feedback. I believe Jane would like to provide this to Sarah by the end of this week if possible. We look forward to your feedback.

Kathleen Salyer
Deputy Director
Office of Resource Conservation and Recovery
